

disability

depend

position

responsibility

attached

frisky

assistance

affinity

If something stops you from doing something that most people can do you have a disability.

When you depend on something or someone you need that person or thing.

When you describe the way that a person or thing stands, sits, or lies down, you tell about that person's or thing's position.

If you have a responsibility there is something you have to do or take care of.

If you are attached to someone or something you feel very close to that person or thing.

If a pet is frisky it is very lively and playful.

When you help someone or something you give assistance.

If you have an affinity for something you naturally like it.
